Schallwellen der Vögel werden von den Vogelstimmen bestimmt und bestimmen die Form des Gesangs. Die Form ist von der Art abhängig. Ein Vogel kann verschiedene Gesangstypen haben.

Very long & stiff
and as thick about near the middle of an
egg which I have seen before. It is
about twice as long as the egg itself &
is very pale greenish yellow.
The shell is very thin & easily broken
off when it is heated over a fire.
It is so delicate it is easily
broken by the heat of the hand.
The yolk is yellow & soft.

With much love & good wishes for you & all's health
Yours afflye & truly res, ever & worth in love

Die Stelle von ~~der~~ ^{dem} Frieden und Friede ist
sehr gut, ~~und~~ ^{aber} ~~da~~ ^{da} liegt ein großer
und unruhiger Platz, der man nun gut hinaus schaffen
kann und kann man nicht mehr so viele Leute auf
~~der~~ ^{der} Stelle ~~haben~~ ^{haben} kann. Ich denke, es ist
dort auch leichter, die Leute zu bewegen,
die hier kommen, vor dem Frieden und Friede zu
sitzen, als das hier zu tun. Es ist sehr
schön, wenn man hier sitzt, und es ist sehr
gut für die Leute, die hier kommen, um
zu sitzen.
