

Y.W. 133332

Oct. 8: 90.

Dear Professor Ford,

Enclosed is

a short sketch of my mental development. I am not sure that I have given what your friend wants. If it is you might read it to him. And when he has done with it, may it be returned to me?

I thank you sincerely for your review of my book. What you say about the style, a little surprises me; because every body else has spoken of the extreme simplicity and directness of my style (in English). However I will be on the alert against such defects as you speak of.

I am distressed about the delay of the "Ethical Record" in arriving from America. It should have been here a week ago.

Yours very sincerely,

Stanton Coit.
